Outboard
200HP
149.14KW
Hours: 545
Year: 1984

Summary/Description

Unlock the thrill of the sea with the Blackfin 27 Combi! A powerhouse for avid anglers, its robust construction is tailored for rough conditions. Only 27ft long boasting the space and stability of larger vessels. This coveted hull guarantees performance. Great opportunity!

Manufacturer Description

An awesome rough-water boat in spite of her small size, the Blackfin 29 Combi was heavily built on a solid fiberglass deep-V hull with a relatively wide beam with plenty of flare at the bow. A low center of gravity—especially on the inboard— makes her a stable trolling platform, at least until a tower is added. Below, the Combi's compact cabin includes a convertible dinette/V-berth forward, a mini-galley, and a standup head with shower. The cockpit can handle a small chair and engine access is excellent. A popular boat for many years, she was updated in 1995 as the Blackfin 29-2 Combi with a restyled bridge deck, curved windshield, integral bow pulpit, and a new helm console with more space for electronic add-ons. The original 29 Combi has engine boxes; in the 29-2 model the boxes were redesigned to form aft-facing lounge seats. Standard 320hp gas engines cruise the 29 Combi at 23-24 knots, and optional 230hp Volvo diesels cruise at 25 knots. Those with Cummins 315hp diesels cruise at 28-29 knots and reach a top speed in the neighborhood of 32 knots.

Description

Experience the Blackfin 27 Combi: a fishing enthusiast's dream. With a robust 10ft beam ensuring remarkable stability, this boat offers unparalleled comfort with a hard top and enclosure. Fishing rods are seamlessly stored, keeping the spacious cockpit clear for action-packed adventures. Don't miss out on the perfect blend of stability, comfort, and functionality - the ultimate vessel for your fishing escapades!
