C18 ACERT
750HP
559.27KW

Generator 1

Kohler (or equivalent)
55Kw 120/208v 3 phase, 1800 rpm
55KW
1800.00RPM

Generator 2

Kohler (or equivalent)
55Kw 120/208v 3 phase, 1800 rpm
55KW
1800.00RPM

Summary/Description

The StellarEXP32 is a steel /aluminum long-range, large volume, strong and rugged explorer yacht capable of travelling ocean crossing distances in superyacht luxury. With a 'fast explorer' aluminium version offered as well the EXP32 inspires confidence in those wanting to roam far and wide.

StellarEXP models are long-range, strong, rugged, superyacht quality ultra-wide beam power catamaran yachts that are offered as either steel/aluminum or all-aluminum constructions with more powerful engines for those that require a 'fast explorer'.

Each size is also offered in M & S configurations. M with an extended upper deck for tender storage capacity and S with a shorter upper deck for main deck tender storage capacity.

Naval Architecture is from Ginton Naval Architects of the Netherlands and our customers work directly with our interior design team to ensure that they receive their perfect interior.

All StellarEXP models are built as Lloyds Hull Construction Certified +100A1 SSC, Yacht, Mono, G6 and can be constructed to to full society or commercial classifications according to customer requirement.

StellarPM is a custom and semi-custom builder and is happy to discuss building exactly what the customer wants or make modifications as desired to any of the existing models so that the customer receives exactly the yacht they desire.
