Summary/Description

The ANTARES 8 is designed for passionate and demanding boaters who value performance, modernity, comfort, and safety.

2024 Beneteau Antares 8A mid-range model in BENETEAU's weekender range, the new Antares 8 preserves the signature features of BENETEAU's long-standing expertise in building innovative, high-performance, family-friendly boats. With its sporty, stylish design, the Antares 8 perfectly embodies the brand's weekender spirit. The overall impression is one of elegance, enhanced by a sleek, streamlined profile that gives the boat its sporty allure. The modular cockpit in the stern guarantees the crew optimal comfort. A new feature, the removable tabletop, converts the bench seat in the cockpit, the folding bench seat in the port freeboard and the bench seat backing onto the glazed window in the saloon into a spacious sunbathing area, or provides passengers with comfortable seating for a sociable meal or sundowner. The Antares 8 is packed with features that make coastal cruising a real pleasure. With its attractive design, top-level fixtures and fittings and sophisticated upholstery available in two colorways, the saloon is both elegant and practical. The swiveling helmsman's and adjustable co-pilot's seats can be tilted to face either the saloon or out to sea. In addition to providing wonderful sea views and bathing the interior with light, the large, glazed windows also keep the boat airy and well ventilated.

Interior fittings on the Antares 8 include a galley area with a fridge and a choice of a gas or electric hob. Lastly, the Antares 8 can also be equipped with an air-conditioning system - perfect for keeping the boat cool during

hot weather when berthed, and even when at sea due to its powerful lithium batteries. This is a really exceptional feature on a boat this size. Up to five passengers can sleep over on the boat. There are two double berths, one in the cabin and one in the wheelhouse, with room for an extra bed in the cleverly designed space under the saloon. The outstanding habitability of the Antares 8 is completed by the bathroom with its excellent headroom.
