Summary/Description

Manufacturer description... "Every Antares is the result of a perfect balance between outdoor space, indoor space and night quarters. A subtle mix of engineering, design and optimization that gives the Flyer boats outstanding modularity and makes for harmonious life on board day and night: modular cockpit, sliding bench, even a side swim platform, creating a terrace over the sea. The Antares powerboats are practical and comfortable aboard, but beyond this they are magnificent boats with lovely slender lines, marrying elegance and performance and well known everywhere you go." Run-A-Muck is a well equipped boat that is in like new condition, with only about 55 hours on the twin 300hp Mercury outboards. Call today to make an appointment to see this beauty!
