Summary/Description

The Sea Pro bay boat has quickly risen to prominence in the industry thanks to its wide range of sizes and models, each offering a perfect balance between serious fishing capabilities and enjoyable family outings.

Available In Store: Pan Handle

Sea Pro 172 Bay

Suzuki 115Hp

The Sea Pro bay boat has quickly risen to prominence in the industry thanks to its wide range of sizes and models, each offering a perfect balance between serious fishing capabilities and enjoyable family outings.

These boats feature large casting decks at the bow and stern, providing ample space for storage, livewells, and plenty of rod holders. Additionally, they come equipped with lockable rod boxes that can be accessed easily without stepping onto the boat. The in-floor lazarette located behind the leaning post allows for convenient access to all essential components while maintaining optimal weight distribution for a smooth ride.

Sea Pro boats are renowned for their sharp bow entry and distinctive "Carolina flare," ensuring comfortable and dry rides even in rough choppy waters that would deter other boats. With various seating configurations available, including stowable and removable options, these boats can be customized to meet the needs of your family for each outing. Standard features such as power-assist steering, premium sound systems, 24/7 monitoring via your cell phone, and Simrad electronics enhance the overall experience, leaving you to simply choose the model that best suits your needs.
