Engines/Generators

Summary/Description

This Fantastic bow-rider is a great day boat for all the aquatic fun under the sun! She is kept very clean, used, maintained regularly, and stored indoors by her present owner who has decided that it's time to move up to a cabin cruiser for overnight trips. The 5.7l gxi has only a little over 400hrs on it and more than enough power to get your adrenaline pumping!

Shiny!
