Summary/Description

This is a very special boat - One of a kind! Built to the highest standards with every detail engineered to meet the specific needs of a Long Range Cruiser Trawler. Designed to take you anywhere, this Trawler is capable and ready to go.

This is a very special boat - One of a kind! Built to the highest standards with every detail engineered to meet the specific needs of a Long Range Cruiser Trawler. Designed to take you anywhere, this Trawler is capable and ready to go.

Featured in PASSAGEMAKER in 2004, this trawler catches the eye of everyone she passes and is recognized by many. Constructed of mild steel in a hard chine configuration with a full keel and a shoe hung rudder, she is a 46 foot fully custom full displacement trawler.

She looks and feels amazing with an excellent amount of living space. From the flybridge to the living room, to the bunk beds, to the walk in engine room, it is the detail in the engineering that really makes this boat special. 4 volumes of manuals details her every system while the summary provides the quick reference guide. The amount of detail in this vessel and her systems is stunning. Smartly designed with details such as multiple separated fuel tanks, fresh and used oil holds, walk in engine rooms with perfect labels show amount of work and love put into building this one of a kind vessel.

She is clean and shows well with a long list of upgrades including a full suite of new electronics. Take her south, live aboard, or simply enjoy the space with the family. Full plans and build details available.

BOW THRUSTER!
