Summary/Description

The H200SS bears a tinted, low-profile windscreen completes the distinctive silhouette. And on the go, the Stable-Vee hull provides optimum stability and smooth maneuverability.

The H200SS bears a tinted, low-profile windscreen completes the distinctive silhouette. And on the go, the Stable-Vee hull provides optimum stability and smooth maneuverability.. A vinyl-wrapped, tri-spoke tilt steering wheel is standard, surrounded by a beautifully polished wood grain backdrop for the gauges. Push button controls are crafted from stainless steel and have an LED status indicator light. Plus, a depth sounder with shallow water alarm is an extra value standard feature. The helms styling is mirrored in the port console, which features a small cooler. Many features that are normally considered upgrades are standard on SS models: a stainless steel prop, Quick & Quiet thru-side exhaust, and SunSport seating. The dual cockpit bucket seats are more accommodating with suspension and flip-up bolsters for an extra smooth ride and an improved single-mechanism adjustment. Seats feature Aquaflex vinyl, tops in marine-grade upholstery. Plus, the H200SS is equipped with an extended swim platform just beyond the walk-over transom, pull-up cleats, a rub rail, grab handles, and cupholders of timeless stainless steel. A bow scuff plate and docking lights are also included. The cockpit includes plush snap-in carpet over a fiberglass liner. The H200SS is available with a cockpit table that can be removed and replaced on a whim, and an optional walk-thru door makes all areas of the boat super accessible. And at the integrated swim platform, Four Winns signature angled, hidden deep-reach ladder with wide-step pads is standard for swimmers comfort.
