Summary/Description

The C&C 33 is a series of Canadian sailboats, that were designed by Robert W. Ball of C&C Design and first built in 1974. Smaller and lighter than the Mark I, this entirely new design was introduced in 1984 and was built until 1988, with 200 completed.

The **C&C 33** is a series of Canadian sailboats, that were designed by Robert W. Ball of C&C Design and first built in 1974. Smaller and lighter than the Mark I, this entirely new design was introduced in 1984 and was built until 1988, with 200 completed. It has a length overall of 32.58 ft (9.9 m), a waterline length of 26.17 ft (8.0 m), displaces 9,450 lb (4,286 kg) and carries 3,975 lb (1,803 kg) of lead ballast

Outrageous Too is a second generation of the C&C 33. With a paintjob done in 2018, and the bottom paint re-done in 2022, it looks much younger than it really is! It shows extremely well and has always been freshwater kept. A perfect sailing vessel for someone looking to move up to a well appointed cruiser!
