The Silverton 422 is a flush-deck aft-cabin that brings innovative molded steps to both the swim platform and flybridge. The aft deck, with its standard hardtop and wetbar, is great for entertaining. This particular vessel boasts one of kind custom made cockpit bench seating with functional storage. The transom also includes storage for electrical cords, hoses, fenders, and lines, as well as providing a swim ladder, and a hot and cold shower for all those water sports. Interior space utilization is important, and the galley, staterooms, heads, and salon of the 422 are designed to incorporate storage areas without passengers seeing them. This vessel is a true beauty and a must see for anyone looking for a comfortable residential feel while on the water.

RECENT MAINTENANCE
