AIR! AFT CABIN!

Cruisers Yachts started in 1904 in the US as Thompson Boats. Today they are still producing high quality yachts built in the USA.

This beautiful little 2006 280 CXi is powered by a pair of Mercruiser 4.3L gas engines, with just over 400 hours on them along with heat/air.

A great layout topsides includes a wrap around cockpit seating area with table, unobstructed walkthrough to the helm and salon, along with a walkout windshield to the bow. The helm sits on a raised platform for great visibility while navigating.

Below, you'll find a head with shower, large aft cabin, good sized dinette, a galley with fridge/freezer, microwave, cooktop and sink, plus a queen sized sleeping area forward.

A great boat for family days on the water, or extended holidays for a small family.
