Year: 2021

Location: Middle

Summary/Description

Sleek profile w/ a spacious layout! Full windshield & deep gunnels protect from the elements while double-stitched upholstery w/ flexible seating and ample space keeps everyone comfortable. Walkthrough between the super cool "hot tub" style seats provides easy access to and from the swim platform.

Heyday Wake boats are designed to create large, specially shaped wakes perfect for surfing or jumping and power your progression in wakeboarding and wake surfing. Through a combination of design innovation, integrity and passion, Heyday Wake Boats breaks down boundaries and makes it possible for anyone with the right drive and desire to shred with the best of them.

With the signature Integrated Wake System, the depth of the freeboard and the weight of the hard-tank ballast work together to push more hull below the water resulting in greater downward force. When this greater force combines with the transom's 117-degree angle intersection with the waterline and soft, radiused corners that pull water around the side of the boat, you get a taller, longer, cleaner, and continuously fed wave behind the boat.

It's the first hull designed specifically for modern wake surfing and wakeboard boats and defies assumptions that you need extra hardware (and years of experience) to dial the perfect wave every. single. time.

You simply will not get more Wake Boat for your dollar than you will with this 'like new' Heyday WTSurf and matching trailer!
