Summary/Description

The Hunter e36 lets you choose between a relaxing cruiser and an exhilarating performance sailor. If a relaxing, stable family sailing yacht is your wish, choose the standard e36 layout. If banging around the buoys at breakneck speed is your game, pick the e36 Performance Package.

HYBRID ELECTRIC, DIESEL GENERATOR,

The Hunter e36 lets you choose between a relaxing cruiser and an exhilarating performance sailor. If a relaxing, stable family sailing yacht is your wish, choose the standard e36 layout. If banging around the buoys at breakneck speed is your game, pick the e36 Performance Package. Either way, you'll get the e36's extra wide beam that spans nearly the entire length of the boat, maximizing both the sleek topside and elegant interior accommodations. The Hunter 36 is a stunning cruiser. The updated window line gives this yacht a sleek feel, but the improvements don't end there. The hull design has been improved, featuring a wider beam further aft as well as a more profound bow hollow. The result of this hull design is a longer dynamic waterline, which means more speed.

The deck features a sleek, modern profile with large side windows allowing for increased interior light. The deck hatches are flush-mount, offering an enhanced look that complements the new profile. Lengthening the cockpit has allowed the Hunter 36 to have a cockpit that is a foot and a half longer than its predecessor. The cockpit of the Hunter 36 also features a fold-down swim platform that extends the already lengthy cockpit another three feet when folded down while the boat is docked or at anchor. Even with the fold-down swim platform, the Hunter 36 has a telescoping stainless steel swim ladder that can be easily accessed while the swim platform is up or down. This safety feature not only functions well, providing stable steps for re-boarding the boat, but also hides away, making for a prettier stern.
