Summary/Description

SWEET is an great example of a performance cruiser perfect for days out on the water. Her meticulous owner has always provided a high level of service execution to the boat with very light use.

SWEET is an great example of a performance cruiser perfect for days out on the water. Her meticulous owner has always provided a high level of service execution to the boat with very light use. Most recently the port and starboard engines were rebuilt making *SWEET* even more ready for the coming season of boating. The boat has been stored indoors in a heated building keep the boat in excellent shape. From forward to aft the boat offers great seating arrangements, sight lines, and ability to control the boat. The cabin offers all the necessary amenities to enjoy your time out on the water.

SWEET is out of the water in Westerly RI and ready for viewing.

Manufacturer Provided Description

The 323's cabin with its huge U-shaped lounge, the seating and sleeping are accommodating and comfortable, the head and shower inviting, the galley welcoming and accessible. In the cockpit, a flip-out table hides in the portside sidewall, ready to swing with just a touch out and up for a quick bite to eat. At the entrance to the cabin opposite the centerline door, a handy stainless ladder slides in-and-out for quick access to the bow. The cockpit galley finds room for a fridge in addition to the stove and sink. At the helm, seating is flexible and comfortable, ready to add more room as the back rests flop forward for a friend to sit nearby. Sternward, the cockpit seating links with the sunpad for ideal use of space there. But the 323 also speaks to boater's sense of style. The 323's first owners will find new fabrics and textures throughout the boat as elegant as they are durable. And there is stainless steel absolutely everywhere on the 323, from the windlass plate to the optional and very aggressive arch to the heavy, stamped engine vents. A stylized wing protects skier-directed speakers above the extended swim platform.

Mechanical Disclaimer

Engine and generator hours are as of the date of the original listing and are a representation of what the listing broker is told by the owner and/or actual reading of the engine hour meters. The broker cannot guarantee the true hours. It is the responsibility of the purchaser and/or his agent to verify engine hours, warranties implied or otherwise and major overhauls as well as all other representations noted on the listing brochure.
