Model Year: 1989  
LOA: 28' (8.53m)

Fuel Type: Gas/Petrol  
Hull Material: Fiberglass

HIN/IMO: SERC22388989

## Engines/Generators

## Summary/Description

This high performance Sea Ray powerboat has spent most of its life in fresh water and has been converted to salt water parts in its latest rebuild and only has 50 hrs on it.

Rebuilt twin Mercury 330 hp engines provide lots of power for fast cruising or can be run economically at 2500 rpm when you want to slow things down and take in the seascape.

The helm/cockpit area has a sizeable sun pad aft, a lounge to port and a bench seat in front of the engine access.

The unique standing captains chairs are eye catching and functional when you raise the seat and climb up for a great view and ride.

The interior provides a functional cabin area and large

v-berth with seating, head area, lots of storage, drink holders, table and wet bar consisting of a small fridge and sink.

Current pictures show a boat in wonderful condition, no rips or tears in the upholstery with a hull in great shape.

Key features:

- Rebuilt engines with 50 hrs. Upgraded salt water components.
- Bravo 1 outdrives fully serviced.
- Fully rebuilt dual axel trailer with 50kms on it.
- Full length custom form fitting boat cover.
- Custom Mooring Cover for cockpit area.
- Dodger

## Construction

White/green fiberglass hull; white fiberglass non-skid decks; white bottom; swim platform; swim ladder; hydraulic steering.
