Summary/Description

BUILDER DEMO The Rosborough family focus remains on vessels that are safe, comfortable, easy to maintain and as versatile as possible.

The Wild Islands 25 C/C has a unique layout and is designed to be enjoyed by family and friends.

She is unconventional compared to the typical Rosborough design however this adventure day boat has unmatched durability, safety and quality.

The Wild Islands hull design incorporates a 21° Deep-V continuous deadrise hull form and a hydro step flat at the keel with lean bow sections and sharp forefoot ensuring very soft entry into rough seas providing unmatched comfort and safety.

The new Wild Islands 25' utilizes the hull designs from the builders Professional Series used throughout the North Atlantic and in Canada's Arctic, with a redesigned layout and additional amenities to allow you and your family time to enjoy the water and explore.

This builders demo is offered fully complete with electronic package and more.
