Manufacturer's Description

OVERVIEW

N-ZO is the perfect combination of luxury, adaptability, durability, and comfort. Designed by the renowned Italian designer, Vittorio Garroni, the N-ZO is specifically created to meet the needs of recreational sailors around the world.

TECHNOLOGY AND INNOVATION

The exclusive N-ZO line is fortified with the latest in Zodiac Nautic technology, which is designed to provide you with the safest and smoothest on-the-water experience possible. The deep V-hull, enhanced with exclusive Zodiac Nautic Shell technology, provides unmatched sea-handling capabilities. The deck-layout was designed with passengers' comfort and safety in mind, offering safe on-board mobility to passengers while docked or moving. To ensure maximum comfort and spaciousness, Zodiac developed the new "Air Console", minimizing space and maximizing interior capacity.

SPACIOUS AND ADAPTABLE

The modular design makes the best of the available space. The bow of the N-ZO can be converted to a large sun-deck in a matter of seconds. The rear of the boat is equipped with a large seating area, easy access to the swim platform, and versatile storage solutions, creating the ultimate entertainment platform.

The new N-ZO line represents, in the best possible way, using versatility to adapt to passenger's desires while maintaining superior seaworthiness, spaciousness, safety, and comfort.
