Engines/Generators

Summary/Description

The Milpro Mk5 is designed heavy duty work, diving and activities that less durable inflatables simply can't handle.

With a passenger capacity of 15 persons and or payload of over 5,500lbs the Milpro Mk5 is designed to get the hardest jobs done.

Equipped with rigid floorboards, intercom valves, lateral stabilizer, lifting and towing points, these inflatables are ready for work.

Equipped with an electric start Yamaha 4-stroke 60hp gas outboard, a 25L fuel tank, battery and folding anchor w/25' chain plus rode.

Contact us to view the boat and or get more information; sailing schools, dive charters, whale watching groups will all be pleased with the performance and durability of the unit.
