Summary/Description

The Back Cove 30 has a V-style hull with downward chines that help get her up on plane fast and efficiently. With the upgraded Yanmar 370hp motor she does so with ease and will cruise in the mid 20s.

The prop runs in a shallow pocket to reduce draft and shaft angles. She is noted for her elegance and spoon shaped bow that give her a distinctive downeast appeal. Her topsides have been well thought out. The side decks are comfortably wide with hand holds within reach. With her diamond patterned antiskid your traction is assured. There is a large anchor locker for storing your gear and a separate compartment for the anchor rhode.

The cockpit has molded in seating in both aft corners with a table base receiver in front of each side. The Sunbrella cushions zip together and are very comfortable to sit on. There is a left transom door with easy access to the swim platform.

The cabin entrance has a custom enclosure that can be rolled up when on-board or for those occasional wet days. Forward on the helm deck are two opposing settee's covered in very comfy Ultraleather in a beautiful Promessa Ash color. The double mate seat is slightly raised for exceptional sight lines while underway and can be reversed to form an L-shaped settee when entertaining. The helm seat is also covered in the same Ultraleather and give you full command of your controls and electronics. The Garmin 7612 gives you a chartplotter and radar for your navigational needs. The VHF is conveniently located just under the engine controls.

Below deck the Back Cove is trimmed with beautiful American Cherry. She has a roomy V-Berth that converts to a dinette with a high gloss inlaid table for eating or lounging. The Galley is well equipped for a boat of this size. She has a built in cook-top, a Stainless Steel sink and a built in trash barrel all with covers to give plenty of prep area.

If you want a like-new boat at used boat pricing this boat is for you! She only has 290 hours on the Yanmar motor. The boat is in excellent condition inside and out the gel coat shines.
