Overview

Vessel Walk-Through

With a spacious interior due to the long waterline and nearly 13' of beam, walking through the cabin feels spacious and comfortable easily accommodating family and friends. The Fin keel with bulb keeps the center of gravity low which allows for an efficient and comfortable sailing experience while still feeling a good amount of power and control throughout all points of sail. The large diameter wheel and counter balanced rudder gives an easy feel for steering under sail and while maneuvering under power.

An incredible layout below with 3 staterooms and 2 heads will keep you and your guests comfortable for extended voyages. The galley is to port with salon and a U shaped settee to starboard that converts to another bunk if required.
