35KW

Summary/Description

The SX88 is a 27m crossover motor yacht with an innovative flybridge helm station that is fully enclosed and air-conditioned from self-operated side windows, creating a free main deck that extends flush from stern to bow - a private loft for your 27-metre yacht.

The SX88 is a 27m crossover motor yacht with an innovative flybridge helm station that is fully enclosed and air-conditioned from self-operated side windows, creating a free main deck that extends flush from stern to bow - a private loft for your 27-metre yacht. The SX88 offers vast space for its size. Sanlorenzo describes the yacht as a 'social' yacht offering a new way of life on board. This particular yacht has a stunning custom interior with Bently furniture in the main deck salon and Fendi furniture on the flybridge. Air conditioning has been fully upgraded beyond the super tropical factory specification. The lower deck boasts 4 comfortable cabins all with attached bathrooms. The flybridge can easily entirely be enclosed and air conditioned, leaving the main deck free of all operations. The living space spreads on the entire deck length creating a loft feeling. one option is to install the master suite on the main deck to offer panoramic views, a never seen feat on an 88'. The beach club is one of the most notable feature on the yacht. Carrying the tenders on the aft while cruising and rapidly launching these while at anchor allows to create an exceptional space on the aft deck for the guests to enjoy close to the water. The enclosed flybridge offers the only wheelhouse aboard, freeing up a major portion of the main deck for a forward facing lounge and dining on the main deck. The uncluttered main deck offers unrivalled amount of luxury.
