Summary/Description

This Cape Fear 38 is designed by Bruce Marek Yacht Design. Design: She has a narrow easily driven hull design with a deep bulb keel, spade rudder and a large sail plan.

She has a retractable bow sprit for asso. spinnakers. She is outfitted with a new custom \$25,000 custom keel and rudder kelp cutter system. Her tapered aluminum triple spreader mast and boom have recently been painted with Awlgrip. Rod headstay and side shrouds were new in (2023) Her Dynema backstay is new as well. New (2023) Harken Carbo-Foil. New Spartite. New (2023) custom tapered Dyneema halyards. Power comes from a Yanmar diesel engine with sail drive. Note: she has a newer main sail but will need a jib and asso spinnaker. In her inventory are the following safety items: 1st aid kit, flairs (both hand held & meteor), throw ring, horn, life jackets, fire extinguisher and throw rope.

A prime upwind 35' Santa Barbara Harbor slip is available with this yacht (priced separately; ask us for details).

Overview

Manufacturer Provided Description

The Cape Fear 38 has a pedigree that few boats can match. Well known designer, Bruce Marek, has been designing sailboats for more than twenty years, so speed is a given. The owner of Cape Fear Yacht Works, Kent Mitchell is a longtime sailor who was educated in architecture, and is now the CEO of the company that is developing Bald Head Island, the southernmost of North Carolina's cape islands. (In fact, the boat company is named for the famous point of Cape Fear, the prominent geographic feature of Bald Head Island.) A family man with three energetic sons, Kent has raced and cruised any number of production boats, but found each to be an unsatisfactory compromise. In the Cape Fear 38, he set out to build his version of the perfect racer/cruiser.
